

NEHRU SCIENCE CENTRE
National Council of Science Museums
Ministry of Culture, Govt. of India
presents

NATIONAL GEOGRAPHIC
FILM FESTIVAL

on the occasion of National Science Day celebration

Documentaries and films can bring the world to students in very real ways to inspire and excite them with the very spirit of storytelling. Stories are universal and create connections across time, places, and cultures, and if they are written using the backdrop of Science and Technology then their potential in engaging the young generation in the field becomes phenomenal. Now more than ever, we need such stories which are based on STEM to help us understand and connect to our fast-changing world. To take this journey forward Nehru Science Centre, as a part of National Science Day celebration, presents 'National Geographic Film Festival' in the Hindi language to create interest among school and college students about STEM.

Mission to the SUN
